

## ITdesk.info

- inclusive and free  
computer e-education

### Did you know ...?

- Computer literacy is an integral part of literacy in modern society and is a prerequisite for finding jobs,
- You are entitled to free access to information and education,
- Beside positive effects on market competition and economic development, investment in human capital and knowledge-based economy provides an additional opportunity to the unemployed, poor or otherwise socially excluded persons,
- Basic computer training course (ECDL) cost about 2500.00 kn (about 343.00 €)
- In addition to traditional means of transmitting knowledge (going to school, reading books) there are other ways of learning,
- In order to pass the ECDL tests, you can learn and acquire desired knowledge without attending the course,
- There is site [www.ITdesk.info](http://www.ITdesk.info) with free access where you can get an overview and gain knowledge needed for taking all 7 of the basic ECDL exams.
